

PANIC WORD: If overwhelmed at any point, type "too much" and the coach will narrow focus to one single next action.

1 · PROJECT IDENTITY

System name	PMD
Personal pseudonym	PM Dev (your use only)
Current phase	Phase 6 — Design & Wireframing
Active project	Project 0 — Portfolio Shell
Session date	April 2026
Identity statement	Where brilliant ideas become shipped products.
Terminology	ADD (not ADHD) · PMD (system) · PM Dev (your pseudonym)

2 · ARTIFACT INVENTORY — PHASES 1–5 (ALL 12 APPROVED)

#	Artifact	Status	Phase	Ver	PDF
#1	Problem Statement — PMD	Approved	Phase 1	v1.0	Yes
#2	Primary Persona — The Visionary Staller	Approved	Phase 2	v1.0	Yes
#3	Secondary Persona — The Hiring Evaluator	Approved	Phase 2	v1.0	Yes
#4	Empathy Map — Persona #1	Approved	Phase 2	v1.0	Yes
#5	Jobs-to-be-Done + 6 Design Principles	Approved	Phase 2	v1.0	Yes
#6	Vision Statement	Approved	Phase 3	v1.0	Yes
#7	Brand Promise	Approved	Phase 3	v3.0	Yes
#8	OKRs — 3 Objectives, 10 Key Results	Approved	Phase 3	v2.1	Yes
#9	Competitive Analysis	Approved	Phase 3	v1.0	Yes
#10	Retrospective — Phases 1–3	Approved	Phase 3	v1.0	Yes
#11	Now / Next / Later Roadmap — Project 0	Approved	Phase 4	v1.0	Yes
#12	PRD — Project 0 Portfolio Shell	Approved	Phase 5	v1.1	Yes

3 · PRD SUMMARY — ARTIFACT #12 · V1.1 APPROVED

Goals & Success Metrics

Metric	Definition	Target
Deployed	Live at public URL, accessible without login	Binary — yes or no
Artifact visibility	PMD artifacts visible and readable on-site	Binary — yes or no
Vision copy	Above-fold copy: vision + process in ≤ 2 sentences each	Binary — yes or no
Contact path	Email address visible in plain text, no interaction required	Binary — yes or no
Monthly visitors	Raw visitor count via Google Analytics GA4	Baseline established at launch

Page Architecture (Static · Single Page · Scroll-Based)

Above the fold	PMD artifact thumbnails + brief text labels · Vision copy: site purpose, vision, and reason for creation in ≤ 2 sentences each
Below the fold	Larger artifact images + 'what' and 'why' copy per artifact · Reachable by scrolling · No navigation, no links required at P0
Contact	Plain text email address — no form, no friction, no click required

Tech Stack & Key Decisions

Build tool	Claude Code · HTML / CSS / Vanilla JS · No framework overhead
Hosting	Netlify (free tier) — recommended over GitHub Pages for simpler DNS configuration
Domain	ThePMDev.com — already owned. Connect to Netlify via DNS config (pending).
Version control	GitHub · CI/CD: local commit → GitHub → Netlify auto-deploy → ThePMDev.com live, zero downtime
Analytics	Google Analytics GA4 — single code snippet, no backend required, establishes visitor baseline
Tooling decision	Strategy B: Claude Code + GitHub only at P0. Figma, Notion, Jira, and Confluence deliberately deferred to P1+ — each adopted when a real workflow need arises, not as a setup exercise.
Constraints	Static only · No backend or database · All content hardcoded · Responsive across mobile, tablet, desktop from day one · Build target: ≤ 10 days from PRD approval

4 · WHERE WE LEFT OFF — RESUME HERE

Phase status	Phases 1–5 complete. All 12 artifacts approved.
Next phase	Phase 6 — Design & Wireframing
Last Socratic prompt	Prompt #21 completed. Phase 6 begins at Socratic Prompt #22.
Design approach	Gut-first hypothesis. No best-practice anchoring. User's raw instincts on paper first — then pressure-tested by coach.
Domain	ThePMDev.com owned. Netlify account creation and DNS configuration required before Phase 6 build begins.

Draft-first protocol	Active — user writes rough drafts on key sections before coach generates polished version.
-----------------------------	--

5 · COACHING MODE

Project	Mode	Active	What changes	%
P0 · Portfolio	Supportive scaffolding	YES	Coach generates, user approves, coach explains why	15%
P1 · Word game	Guided drafting		User drafts first on key artifacts, coach critiques	35%
P2 · TBD	Critical collaboration		Coach challenges assumptions, pushes back on weak reasoning	55%
P3 · TBD	CPO peer review mode		Coach responds as a CPO reviewing a PM's work	75%
P4+ · TBD	Professional friction		Open disagreement — user defends decisions with evidence	95%

6 · ACTION ITEMS BEFORE PHASE 6

Required before starting Phase 6
1. Paste Artifact #12 (PRD — Project 0 Portfolio Shell) into PMD Playbook — Living Document (Google Doc).
2. Add PMD_Artifact12_PRD_Project0_v1.1.pdf to PMD archive zip.
3. Create Netlify account and connect ThePMDDev.com DNS — Claude Code needs this live before it can deploy.
4. Update PMD Playbook session summary section to v3.0.

7 · OPEN QUESTIONS — TO RESOLVE IN PHASE 6+

Visual design direction	Gut-first hypothesis. No reference sites. User's raw instincts tested before any best-practice influence. Target: Phase 6.
Word game core mechanic	Target: Project 1 kickoff.
PMD as software vs. Claude workflow	Strategic — deferred. No decision required before P1.

8 · RESUME PROMPT — PASTE AT START OF NEW SESSION

Copy everything below this line into a new Claude conversation
I am continuing my PMD coaching journey. I have attached my session summary document: PMD_Session03_Summary_Phase6_Handoff.pdf along with PMD_Playbook_Living_Document.pdf for context.

Please confirm you have full context by acknowledging the following before we begin:
* System name: PMD. My personal pseudonym: PM Dev.
* Phases 1–5 complete. All 12 artifacts approved.
* Active project: Project 0 — Portfolio Shell.
* Current phase: Phase 6 — Design & Wireframing.
* Coaching mode: Supportive Scaffolding. Coach generates, I approve.
* Draft-first protocol remains active — I write rough drafts on key sections before you generate the polished version.
* Terminology: ADD (not ADHD), PMD (not PM Dev for the system).
* Panic word: "too much."
* Design approach: gut-first hypothesis. No best-practice anchoring. My instincts on paper first — then pressure-test them.
* Last Socratic prompt completed: #21. Phase 6 begins at Socratic Prompt #22.
* Domain owned: ThePMDev.com. Hosting: Netlify (pending setup).
Once confirmed, ignite Phase 6.
