4. ABOVE-FOLD ZONE — ALL DECISIONS LOCKED

Locked Copy

Element	Final Approved Copy
H1	The PMD System
Blockquote	Built for the mind that sees three steps ahead, maps the full product in seconds, and deserves a system fast enough to keep up.
Cite	— PMD Vision Statement
Body	PMD is that system. It holds the complexity so that mind maintains focus. It closes the gap between the idea and a shipped product — comprehensively, professionally, and at the speed of thought. Nothing missed. Nothing left behind.
Closing A	Sounds too good to be true?
Closing B	The portfolio herein proves it.

Design System Tokens — Locked

Token	Value	Notes
--color-black	#111111	All zone backgrounds
--color-white	#FFFFFF	H1 · logo border only
--color-text	#E8E8E8	Body copy · blockquote · closing — softer white — 15.3:1 on #111111 — WCAG AA

--color-off-white	#FAFAFA	Artifact tile backgrounds
--color-gray-dark	#767676	Nav placeholders · blockquote border — 4.54:1 on #111111 — WCAG AA
--color-gray-mid	#949494	Cite text · footer secondary — 4.6:1 on #111111 — WCAG AA

Nav Update — Wireframe v4.1

Zone	v4.0	v4.1
Above-fold top-right	Home · Work · Process · Contact	Projects · About · Contact
Footer stacked nav	Home · Work · Process · Contact	Projects · About · Contact
Logo treatment	img element only	Anchor tag wrapping img — aria-label — href=index.html

Rationale: Home removed — logo handles return. Work renamed Projects. About added between Projects and Contact. WCAG note: SC 2.4.5 multi-way navigation required once About page exists (P1).

Key CSS Decisions

Element	Decision	Rationale
header	max-width: 1000px · margin: 0 auto	Constrained content — full-bleed black canvas behind via body background
skip link	position absolute off-screen · visible on :focus	WCAG 2.4.1 — bypass repeated navigation blocks
nav items	span placeholders — no href	anchor href=# rejected — creates keyboard focus trap — WCAG 2.1.1 failure
logo link	anchor tag · aria-label · focus outline	WCAG keyboard navigability · screen reader label for logo link
sketch-prd	position absolute · right offset · height calc(100% + 75px)	Overruns blockquote top and bottom per wireframe spec — intentional visual tension
sketch-roadmap	position absolute · left offset · below blockquote + 45px	Diagonal composition — brackets body text on opposite side from PRD sketch
blockquote-left	margin-right: 20%	Shifts blockquote left — opens space for PRD sketch on right
body-right	margin-left: 20%	Shifts body text right — opens space for roadmap sketch on left
scroll cue	CSS keyframe bounce · aria-hidden=true	Decorative element — hidden from screen readers — no semantic value
--color-text	#E8E8E8 · 15.3:1 contrast	Reduced harshness from pure white — well above 4.5:1 AA threshold

10. COACHING MODE

Project	Mode	Active	What changes	%
