v1.0 · May 2026 · Pre-P1 System Build Session · Six System Additions Initiated

1 · PROJECT IDENTITY

Field	Value
System name	PMD
Pseudonym	PM Dev (your use only — never public)
Identity statement	Where brilliant ideas become shipped products.
Live URL	https://thepmdev.com/
Terminology	ADD · PMD · PM Dev
Current status	P0 complete · Session 08 system build complete · P1 kickoff queued
Session date	May 2026
Build approach	HTML/CSS/Vanilla JS → React → Full-stack. Claude Code as primary execution tool.
Accessibility	WCAG 2.2 Level AA — non-negotiable — FR-09 — all projects
Draft-first	Active from P1. User drafts first. Coach critiques second.
Coaching mode	Supportive Scaffolding at P0 → Guided Drafting at P1 → escalating per phase

2 · SESSION 08 — WORK COMPLETED

Work item	Summary	Status
Roadmap v2.0 → v2.1	Synthesized 3 source documents into Artifact #18 v2.0 (8 phases, 66+ projects). Applied 5 corrections: Project Context Brief scoping, auth placement callout, Phase Overview Core Capabilities fixed, column widths corrected, Architecture Intent visible.	✓ Complete
Artifact #19 — Content Strategy	Atom-to-Architecture three-tier framework. 40-topic content menu. AI extraction prompts. Four raw material buckets. Hidden SEO tactic. SKILL.md updated with permanent content strategy section.	✓ Complete
Six System Additions scoped	Six gaps identified, sequenced in dependency order: (1) Kickoff Protocol, (2a) Skills Tracker, (2b) Living Resume, (3) Sentiment Diary, (4) System Decision Log, (5) Reading Tracker, (6) Phase Retro.	✓ Complete
Artifact #20 — Kickoff Protocol v1.1	Five-step protocol: Project Context Brief → Ignition Prompt → Evaluation → North Star Document → Kickoff Checklist. v1.0 revised to v1.1: project-scoped brief, skills named explicitly, conditional deployment tracks, panic word removed. SKILL.md updated.	✓ Complete
Artifact #21 — Skills Tracker	Interactive React component. 8 phases, 66+ projects. Collapsible phase/project tree. Gray/amber/green status states. Portfolio ★ and auth ■ markers. Phase progress bars.	✓ Complete

Artifacts #22a + #22b — Living Resume	ATS traditional (22a) and PMD-style two-column (22b). Single data source drives both. Pending: PMD_Resume_Data.md personal details + 22b white background for print.	■ Pending
--	--	-----------

3 · COMPLETE ARTIFACT INVENTORY — ALL 22

#	Artifact	Session/Phase	Version	Status

5	Reading Tracker + thepmdev.com Page Books mapped to phases. Reflection notes. thepmdev.com readings page in P0 v2 backlog.	Artifact #24 + backlog	■ Queued
6	Phase Retro + Portfolio Readiness Phase-group retrospective. Portfolio readiness gate before milestone projects.	Artifact #25 — TBD	■ Queued

5 · LOCKED DECISIONS — CARRY FORWARD

Decision	Detail
PDF table cell pattern	ALL cells wrapped in Paragraph via P() helper. VALIGN TOP. Header rows bold white. Never plain strings.
WCAG 2.2 Level AA	Non-negotiable. FR-09. All projects. Never deferred.
Build approach	HTML/CSS/JS → React → Full-stack. Claude Code primary. Professional tooling from P1 forward.
Terminology	ADD. PMD. PM Dev (pseudonym only).
Session entry point	10 minutes is enough. One prompt, one answer is a complete session.
Project numbering	P0 = portfolio always. P1–Pn = development journey. Iterations = P0 v2, P1 v2 etc.
Classification	Learning (internal) or Portfolio (thepmdev.com). Locked at kickoff Step 3.
Deployment tracks	Portfolio/Public: CI/CD + Netlify + WCAG required. Learning/Internal: GitHub repo + local dev only.
Draft-first protocol	Active from P1. User drafts first. Coach refines second.
Coaching calibration	P0: Supportive. P1: Guided Drafting. P2: Critical. P3: CPO Review. P4+: Professional Friction.
Kickoff protocol	5 steps before Phase 1 of every project. North Star Document locked first. Deployment track locked at Step 3.
Ignition prompt pattern	3 domain-different options + commercialization question. Skills named as clever solutions. PRD Phase 5 = ownership transfer.
Content strategy	Tier 1 every project. Tier 2 every phase group close. Tier 3 every portfolio milestone. 4 buckets at every session close.
Full launch trigger	P0 v2 complete + 3 portfolio projects live. Hard deadline: 180 days from May 2026.
Confidence score	Current: 1.0/10. Target post-P1: 4–5/10. Scored honestly, not aspirationally.

6 · OPEN ITEMS — ALL ACTIVE

Item	Detail	When	Priority
PMD_Resume_Data.md	Create .md with all personal details: name, location, phone, email, portfolio URL, LinkedIn, GitHub, education with dates, certifications. Both resume generators read from it at runtime.	Before v1.1 resumes	High
Resume 22b white bg	Revise PMD-style resume to white/light background for print compatibility. Retain two-column layout and PMD identity. Version to v1.1.	With Resume_Data.md	High
Item 3 — Sentiment Diary	Visual sentiment infographic. Emotional journey per project. Retrospective categories: worked well, tricky, proud, exceeded expectations. thepmdev.com showcase candidate.	Next session	High
Item 4 — Decision Log	PMD_DECISION_LOG.md at repo root. System-level decisions. Roadmap sequencing rationale. System additions. Architectural choices.	Next session	High
Item 5 — Reading Tracker	Books mapped to phases with reading log and reflection notes. thepmdev.com readings/reviews page in P0 v2 backlog.	Next session	Medium
Item 6 — Phase Retro	Phase-group retrospective template. Portfolio readiness checklist: skills sufficient, tools experienced, PM depth adequate.	Next session	Medium
SKILL.md v1.2 update	Confirm version history updated: content strategy section + kickoff protocol section added this session.	Before P1	High
docs/current/ population	File Artifacts #18–#22b to docs/current/. Move prior versions to docs/archive/.	Before P1	Medium
NOTES.md update	Update repository NOTES.md with all open items from Session 08.	Before P1	Medium
Clarity–GA4 connection	Connect Microsoft Clarity property to GA4 for combined reporting.	Ongoing	Medium
Footer email	Replace hello@thepmdev.com placeholder after Google Workspace setup.	Before evaluator sharing	Medium
Living Appendix — P0 v2	thepmdev.com nav section housing all P1–Pn projects as living appendix. Titles, numbers, phases, skills, dates. No individual deployments required.	P0 v2 build	Deferred
P1 Kickoff	After all six system additions complete: run five-step Kickoff Protocol. Coach delivers Project Context Brief. Ignition prompt fires.	Session 09 or 10	Scheduled

7 · P0 V2 BACKLOG — UPDATED THIS SESSION

Feature	Description	Trigger
Homepage redesign	Project thumbnail grid. Show don't tell. Each thumbnail solves a materially different evaluator-relevant problem.	After P1 exists

Roadmap visualisation	Inverted node tree. Cumulative projects, tools, skills branching outward.	P0 v2 build
Navigation build-out	Nav spans become proper anchor href tags. PMD Process page. Projects page IA.	P0 v2 build
Artifact tiles clickable	If Clarity dead click data confirms evaluator expectation.	Post 50-session review
CTA after Zone 3	If Clarity confirms Zone 3 sessions not converting.	Post 50-session review
Netlify UTM redirect	Replace Bit.ly with Netlify _redirects rules.	P0 v2 build
Footer email live	Replace placeholder after Google Workspace setup.	After Workspace
Mobile Zone 4	Zone 4 hidden at 480px. Mobile-friendly Playbook alternative.	P0 v2 build
Living Appendix — NEW	All P1–Pn projects as nav section. Titles, numbers, phases, skills, dates. No individual deploys.	P0 v2 build
Readings Page — NEW	Books read with phase mapping and reflection notes. Shows genuine learning intent.	P0 v2 build
Skills Tracker embed — NEW	Artifact #21 React component embedded as live journey progress visualization.	P0 v2 build

8 · CONFIDENCE SCORE — HONEST CALIBRATION

Milestone	Score	Note
Start of P0	0.5 / 10	No system. No artifacts. No deployed product.
P0 sign-off	1.0 / 10	Live URL. 16 artifacts approved. Process completed once.
Post Session 08	1.0 / 10	System significantly expanded. Score unchanged — no new project shipped yet. Honest, not aspirational.
Target — post P1	4–5 / 10	Second full 9-phase cycle. Draft-first active. Process starts to feel owned.
Target — post P3	7.0 / 10	CPO peer review mode. Portfolio threshold approaching.
